UTILITY RISK MANAGEMENT FOR COLLEGES AND UNIVERSITIES

The U.S. DOE and NASEO co-sponsored Midwest Buildings Technology Application Center (MBTAC) is implementing an outreach initiative in 2007 targeting the implementation of **energy efficient building technologies** and **better building practices** within Midwest colleges and universities.

The initiative's focus continues with a series* of complimentary workshops that bring industry experts to colleges and universities via 2-hour interactive Internet-Teleconference webinars. The fourth webinar, titled "Utility Risk Management for Colleges and Universities" will broadcast Tuesday, July 24, 2007 at 9:00 AM (central time). During this webinar, industry and subject matter experts will cover:

- ▶ Why energy prices are so volatile
- ▶ How to analyze market price trends (short, medium, and long term)
- ▶ Managing risk in deregulated natural gas markets
- ▶ Best options available in regulated electric markets
- ▶ Managing risk in deregulated electric markets

WEBINAR DETAILS
